The City of Coweta Zoning Ordinance currently defines *the principal use of land [in single-family zoned areas] is for single-family dwellings and related*

recreational, religious and educational facilities normally required to provide the basic elements of a balanced and attractive residential area. These areas are intended to be defined and protected from the encroachment of uses not performing a function necessary to the residential environment. Internal stability, attractiveness, order and efficiency is encouraged by providing for adequate light, air and open space for dwelling and related facilities and through consideration of the proper functional relationship of each element.

Multi-Family

The City of Coweta Zoning Ordinance currently defines the RM-1 zoning designation and being the *Multi-Family Residential district [that] is provided to allow medium to high population density along with religious, recreational and educational facilities. The district is generally located adjacent to the commercial districts and permits a transition to the Single-Family Residential districts.*

Commercial

The City of Coweta Zoning Ordinance currently defines the Commercial General (CG) Zoning District as follows: *This district is intended to accommodate a variety of general commercial and nonresidential uses characterized primarily by retail, office and service establishments and oriented primarily to major traffic arteries or extensive areas of predominantly commercial usage and characteristics. Certain related structures and uses are permitted outright or are permissible as a special exception subject to the restrictions and requirements intended to best fulfill the intent of this ordinance. The development standards for this PUD are located in Section 5: Development Standards.*

The applicant Tim Terral, TEP, for the Property Owners, Bishop Palmer Ventures, LLC, has requested a Minor Subdivision (Lot Split) on a tract of land which lies within Planned Unit Development (PUD) – PUD-R 13-02, commonly known as Coweta Crossing South 45.

Case Facts

- This PUD has uses permitted under the General Commercial (CG) zoning, specifically Section 1110, 1120 and 1130 of the Coweta Zoning Code.
- The new lots will meet the minimum yard requirements for the General Commercial (CG) District.
- On 6 February 2023 the City Council established a Specific Use Permit (CZ 22-06 SUP) allowing for the establishment of a storage facility on the lot. This SUP had the following conditions:
 - The area of the parcel devoted to planned and intended uses as outlined by the PUD shall not be less than thirty (30) percent of the overall parcel area (approximately 334,130 square feet total).
 - The mini-storage area and all associated activities shall be fully enclosed by a screening wall or fence as outlined in Section 250 of the Coweta Zoning Code. Additionally, such fence shall be constructed out of brick or masonry materials.
 - The purpose of screening walls is to help maintain a compatible relationship between certain land uses, particularly for nonconforming uses.
 - Office and warehouse space shall be designed using glass, brick, masonry, or stucco materials consistent with existing structures within the subdivision on public facing walls.
- The intended lot split honors the first condition set by the City Council.

Proposed Lots:

- Tract 1: Said tract contains 100,403 square feet or 2.3049 acres more or less.
- Tract 2: Said tract contains 224,382 square feet or 5.1511 acres more or less.

This property has access from South 271st East Avenue and East 116th Street South. Tract 1: is for restaurants, commercial retail, entertainment, and office uses. Tract 2: is for enclosed Recreational Vehicle (RV) Mini Storage, Mini Storage, and office.

A Technical Advisory Committee (TAC) Agenda was sent on May 8, 2023. City Staff received no adverse comments to the proposed Minor Subdivision (Lot Split).

Coweta Crossing

Planned Unit Development Number PUD-R 13-02

DEVELOPMENT CONCEPT

Introduction.

Coweta Crossing is a proposed mixed-use Planned Unit Development (PUD) located north of downtown Coweta, east of State Highway 51. The Proposed PUD is presently zoned CG (Commercial General) under PUD-C 12-02 and RS-2 and CG under "The Woods Golf Community Development" PUD. The overall site totals 366.28 acres and is located on the east side of State Highway 51 and South of E. 111th Street South. The property is in the Northeast Quarter of Section 35, Township 18 North, Range 15 East, and Section 36, Township 18 North, Range 15 East in Wagoner County, Oklahoma. See Exhibit B, which is a Concept Master Plan of the Site.

The Proposed PUD will consist of a number of uses. Those uses will be: restaurant, commercial retail, entertainment, office, single family dwellings, multi-family dwellings, a golf course with a clubhouse, a community center and a Coweta Public School site. The creation of active open space, while emphasizing the preservation of passive open space, is a very important aspect in the planning of Coweta Crossing. Sensitivity to topography, vegetation and surrounding land uses contributed to the planning and execution of the development to fulfill the present and future needs of the Coweta community.

As depicted on Exhibit A, the Concept Master Plan for this Planned Unit Development (PUD) shows five possible land uses within this development.

Development Area A is planned for restaurant, commercial retail, entertainment and office uses.

Development Area B is planned for residential single family dwellings, a municipal community center, public school, public golf course with a driving range and club house.

Development Area C is planned for residential multi-family dwellings, apartments and townhouses.

Legal description is provided as follows: Exhibit B-1 (Overall PUD Site Legal Description).

The public Golf Course will be re-designed and will be a nine (9) hole course with a driving range and club house. The development will feature existing and proposed lakes that will function both aesthetically as well as provide storm water detention. Possible amenities for the residential home owners could be a swimming pool and a tennis court.

Zoning.

The Site will be developed as three (3) Development Areas. The areas will be zoned CG (Commercial General), RS-2 (Residential Single Family), RM-1 (Residential Multi-family) . Uses allowed by right and exception in these zoning districts are allowed in this planned unit development. Attached as Exhibit C is a map that identifies the existing zoning of the site and surrounding areas.

Features of the site and surrounding area; viability and compatibility.

The site is located in North Coweta. A portion of the site is located in Section 35, South of East 111th Street South and East of State Highway 51. A 65 acre portion of the site is located abutting State Highway 51, the primary arterial road in Coweta. A Wal-Mart Center is located north of the Site on the south side of East 111th Street South. Along Highway 51, (west portion of the site) is a building used for commercial purposes. The “Woods Subdivision” is located north of the proposed site in Section 36 and “Creek Hollow” is located south of the proposed site in Section 36. A natural drainage and floodplain area, “Coweta Creek”, runs along the East line of Section 35. To the South of the portion West of “Coweta Creek” is an existing mini-storage development along Highway 51 and a larger lot (RS-1) residential development.

There should be no question that development of the site for the uses proposed in this PUD are compatible with and in fact supported by the site features and the surrounding land uses. Compatibility of the proposed planned unit development with the existing and planned uses surrounding the site further is achieved by the development standards explained in the text that follows.

Memorandum

To: Planning Commission
From: Tom E Young Jr, City Planner
Location: 27907 South State Highway 51
Zoning: General Commercial (CG) zoning
Re: CLS 23-07 – Minor Subdivision (Lot Split)
Date: 06-19-2023

BACKGROUND

Applicant: Bell Land Use LLC, for the Property Owners, Dash Land Co., LLC.

The applicant Bell Land Use LLC, for the property owners, Dash Land Co., LLC, has asked for a Minor Subdivision (Lot Split). This tract of land lies within the General Commercial (CG) zoning. The new lots will meet the minimum yard requirements for the General Commercial (CG) District.

Proposed Lots:

- Tract 1: Said tract containing 4.361 Acres more or less.
- Tract 2: Said tract containing 2.683 Acres more or less.
- Tract 3: Said tract Containing 5.079 Acres more or less.

This property has access from South State Highway 51.

- Tract 1: is for commercial retail and/or office uses.
- Tract 2: is for commercial retail and/or office uses.
- Tract 3: is being processed as a Conservation Easement Area to incorporate the entire 5.079 acres.

This property can be developed, but it was determined that as good stewards of the land a conservation easement would better serve the community. The majority of the property located in the proposed Tract 3 is inundated with 100-year floodplain and is recognized as having two blue line streams that are under the jurisdiction of the US Army Corps of Engineers. The conservation easement is in the process of being filed and will forever restrict the construction of any structure on the property. Michael Patton, Executive Director of Legacy Land Trust will be the controlling agency of the Conservation Easement (Tract 3).

A Technical Advisory Committee (TAC) Agenda was sent on May 8, 2023. City Staff received no adverse comments on the proposed Minor Subdivision (Lot Split).

SECTION 780 Definitions

Mobile Home: This term used for factory built homes produced prior to June 15, 1976, when the HUD Code went into effect. By 1970, these homes were built to voluntary industry standards that were eventually enforced by 45 states.

Manufactured Home: These are homes built entirely in the factory under a federal building code administered by the U.S. Department of Housing and Urban Development (HUD). The Federal Manufactured Home Construction and Safety Standards (commonly known as the HUD Code) went into effect June 15, 1976. Manufactured homes may be single or multi section and are transported to the site and installed. The federal standards regulate manufactured housing design and construction, strength and durability, transportability, fire resistance, energy efficiency and quality. The HUD Code also sets performance standards for the heating, plumbing, air conditioning, thermal and electrical systems. It is the only federally regulated national building code. On site additions, such as garages, decks and porches, often add to the attractiveness of manufactured homes and must be built to local, state or regional building codes.

Modular Home: These factory built homes are built to state, local or regional code where the home will be located. Modules are transported to the site and installed.

Panelized Home: These are factory built homes in which panels - a whole wall with windows, doors, wiring and outside siding - are transported to the site and assembled. The homes must meet state or local building codes where they are sited.

Pre-Cut Homes: This is the name for factory built housing in which building materials are factory cut to design specifications, transported to the site and assembled. Pre-cut homes include kit, log and dome homes. These homes must meet local, state or regional building codes.

Mémorandum

To: Chairperson, Members of the Planning Commission
From: Roger Kolman, City Manager
Re: Proposed Amendment Section 240.3
Date: 5/15/2023

BACKGROUND

The Coweta Zoning Code, at Section 240.3 regulates the use of gravel for off-street parking in the R districts. The lack of clarity in the current regulations has resulted in questions about applicability to commercial districts, and as to when and where the gravel drives are allowed. To address these issues, Staff has discussed a proposed amendment that would:

- Remove from the zoning code certain language that conflicts with language in the City Code.
- Clarify that the purpose of the parking requirements is the keep mud, dirt, gravel, etc. off of the public streets and out of the storm water systems.
- Reclarify that off-street parking must follow the all-weather asphalt or concrete material requirements of Chapter 17 and Chapter 23 of the zoning code.
- Allow, in certain circumstances, in the residential districts, the use of pervious pavement or gravel/rock for off-street supplemental parking.
 - Property has an existing home in a residential district
 - Property does not meet the minimum off-street parking requirements of the code, or has an approved ancillary use requiring additional off-street parking
 - Pervious pavement systems may be used in place of impervious systems
 - Gravel/rock must be installed on a compacted subsurface.
 - Vehicles parked on gravel/rock must cross a minimum of five (5) feet of all-weather surface before entering a public roadway
 - Gravel/rock parking areas must be bordered on all sides with systems designed to contain the gravel/rock
- All systems must be maintained in a neat and orderly manner in compliance with other city ordinances
